

## Donation of Stock or Securities

Donating appreciated securities to the National Park Foundation is a wonderful way to help the national parks. Before making such a gift, please make sure to discuss your particular situation, including tax benefits, with your financial advisor.

In order to reap the maximum value from a gift of appreciated securities, the security should be transferred to the National Park Foundation. Once the transaction is complete, it is the Foundation's policy to sell the stock or security immediately in order to put the proceeds to work for the parks. Per the IRS, NPF establishes the value of the stock by calculating the mean average price on the date ownership is transferred.

To make such a gift, provide the following information to your financial advisor, along with the security name and number of shares. ***It is very important that you also alert the National Park Foundation*** of your gift so we can identify it when it arrives in our account and you receive credit for the donation. Please fill out the attached information form or mail or fax the Foundation a copy of the written instructions you provide to your financial advisor.

The tax identification number for NPF is 52-1086761.

### STOCK TRANSFER INSTRUCTIONS:

To transfer shares to the Vanguard Group on behalf of the National Park Foundation please provide the following information to your financial advisor:

**DTC# 0062**  
**VANGUARD BROKERAGE ACCOUNT (VBS)# 11141183**

For more information regarding gifts of stock or information on wiring a gift, please contact:

Nicole Engdahl  
Vice President, Planned Giving  
National Park Foundation
